

August 7, 2018

Dear friends of The Palmas Academy:

In an effort to keep you informed, enclosed is the second (2nd) edition of our academy's annual report. The 2017-2018 academic year was extremely challenging due to the effects of hurricanes Irma and María. Nonetheless, the resilience of every member of our school community enabled amazing results in terms of our curricular and extracurricular endeavors. Most certainly, the speedy recovery process provided our school community with opportunities to continue offering excellent academic services.

Recently, our academy was able to purchase a power generator. It will be installed on the school premises before the beginning of the next academic year. This much needed equipment will provide a comfortable school environment and will also guarantee that our academic services are offered during periods of electric power shortages. Various members of the Palmas del Mar community collaborated in the decision making process for the purchase of this generator. We are extremely grateful to them!

The Palmas Academy's annual budget is solely based on the monthly earnings of our student enrollment. Monetary donations have been the determining factor in our capacity to provide high quality academic opportunities for our student population. As a respectable and successful member of the business community in the Southeastern region of Puerto Rico, our academy will appreciate your monetary donations for the next academic year. The Palmas Academy will therefore continue to excel in its outstanding accomplishments as a result of your financial support.

This 2nd annual report demonstrates the successful outcomes of our students. You will also enjoy viewing in this report the multiple evidences regarding the commitment of every member of our school community that diligently worked in a team-oriented environment. Every residential community needs an excellent academic institution in order to guarantee quality in everyone's living experiences. The Palmas Academy has consistently contributed with the growth and development of its student population.

You may contact us through email at tpapr@palmasacademy.org or by phone (787-850-9120) to process your monetary donation.

Thanking you in advance for your support and contribution,

Dr. Giovanna Balaguer
President of the Board of Trustees

Dr. Lidia Verson
Head of School
